

WE DON'T IMPORT OUR DREAMS, SO WHY IMPORT THE STUFF THEY'RE MADE OF?

Freedom, self-reliance, and a natural abundance of the minerals that can manifest even the biggest dreamer's biggest dreams. You can build a nation on that. And we have. But despite our country's vast mineral assets, we now import more than half of many of the minerals our way of life depends on. Minerals that contribute to our nation's economic well-being and security. All those who care about America's mineral future believe an updated mining law can provide a fair economic return to taxpayers, can help clean up abandoned sites, and allow the U.S. to meet more of its needs here at home. That's why we're working with Congress to pass a new law, one that will make sure we can use America's boundless mineral wealth to fuel our dreams. Won't you please join us?

MINING.

THE STUFF AMERICA'S MADE OF.
